Drink Menu

At One Square, we appreciate that the difference between a good bar and a great one is all in the details. From the Scottish Ionian marble on the bar to over 100 different varieties of gin proudly positioned behind it, we have spent considerable time perfecting the finer points. The same can be said of our cocktails, with a real emphasis on premium

ingredients, well-crafted and served with style.

windows providing views across Festival Square to the iconic Edinburgh Castle, there could be no finer spot in which to enjoy Afternoon Tea. One Square Gin

Starting with a traditional recipe, we got our heads together with our friends at Pickering's Gin and selected over 15 botanicals from across the world. After all, Edinburgh, and in particular the port of Leith, has a long and rich history of global trade, so we thought it only right that this should be reflected in the end product. The result is a truly globetrotting gin, hand-made with only the finest natural ingredients. Mediterranean liquorice and orris

root add a heady
kick, while juniper
and fragrant
Scottish heather are
harvested much
closer to home.
Notes of lemon,
lime and anise are
combined to create
a citrusy, easy-
drinking gin that
refreshes and
invigorates in equal
measure.
